

DELTACO

A NORDIC BRAND

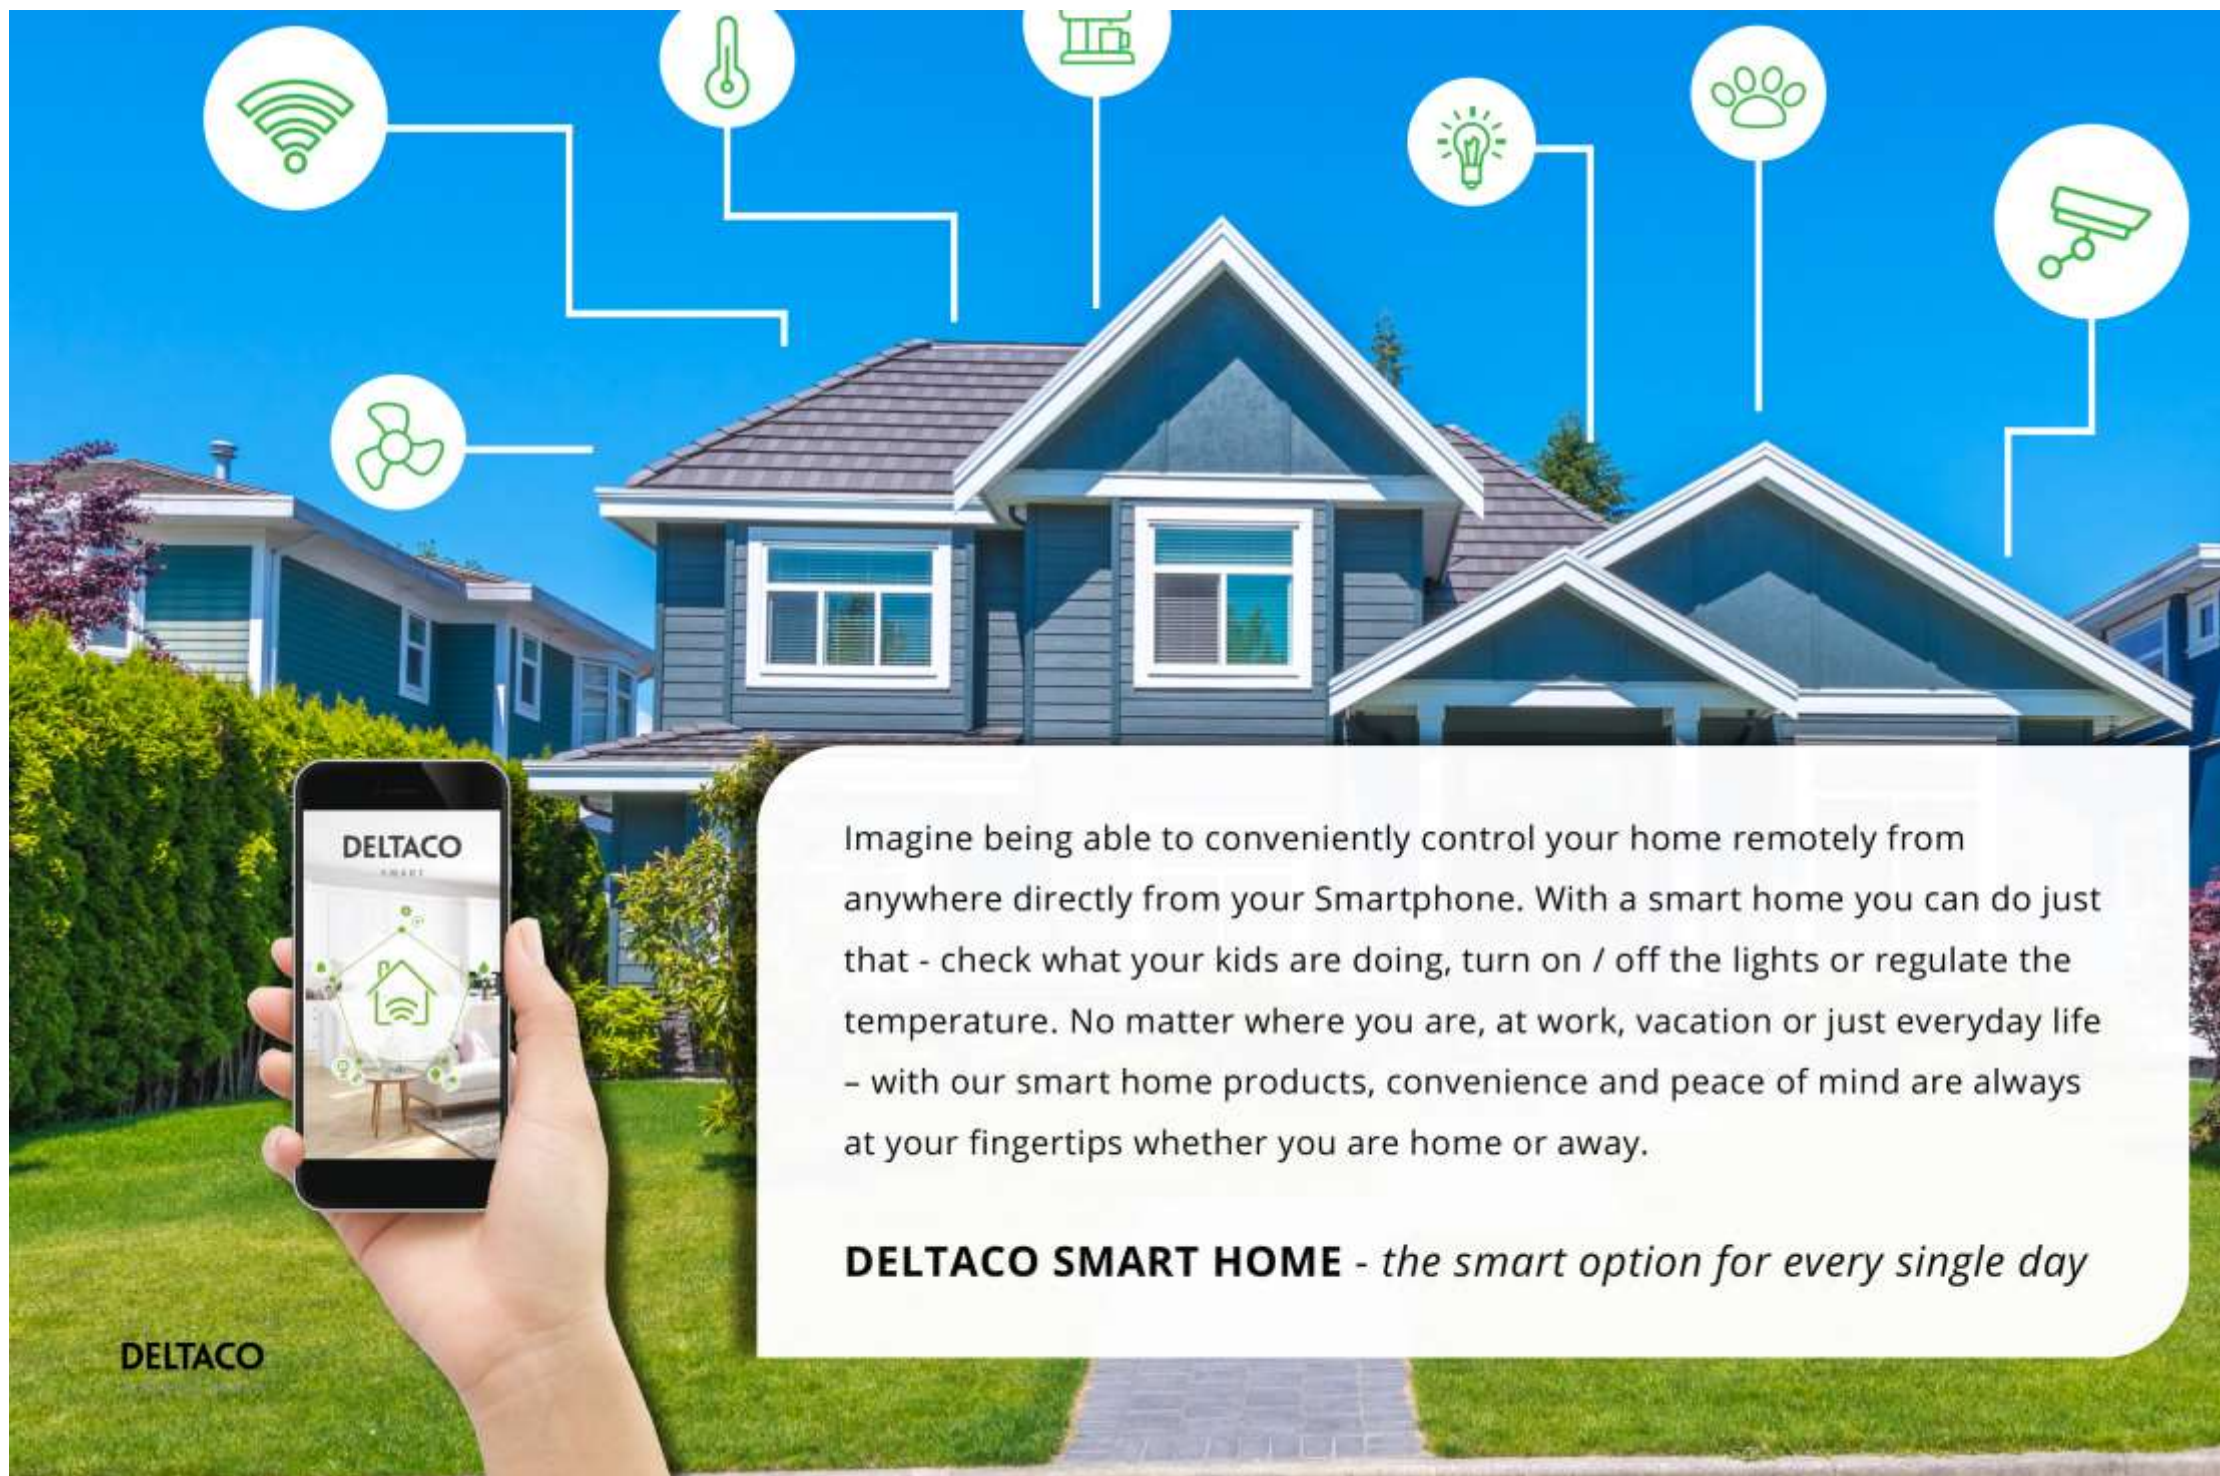

FENIKS INFO

FOR A SIMPLER LIFE WITH

DELTACO SMART HOME

Imagine being able to conveniently control your home remotely from anywhere directly from your Smartphone. With a smart home you can do just that - check what your kids are doing, turn on / off the lights or regulate the temperature. No matter where you are, at work, vacation or just everyday life - with our smart home products, convenience and peace of mind are always at your fingertips whether you are home or away.

DELTACO SMART HOME - *the smart option for every single day*

DELTACO

WHAT IS A SMART HOME?

A smart or intelligent home refers to a convenient home setup where appliances and devices can be automatically controlled remotely from anywhere with an internet connection using a Smartphone or other electronic devices. The products in a smart home are interconnected through the internet, allowing the user to control functions such as plugs, lighting, temperature and surveillance remotely. Smart, huh?

WELCOME TO YOUR SMART HOME

The popular saying “Home sweet home” is probably one of the most used of all time, not least by us. You see, we are great believers in that it really should be sweet coming home. That is precisely what we have ensured, by making it even sweeter. Exactly how, you ask yourself?
By using technology to our advantage.

DELTACO SMART HOME combines home devices with cutting edge technology to give you an intelligent home you will never want to leave.

The SMART HOME assortment consists of four main categories:
power, lights, security and climate.

Thanks to our easy-to-use app you can control all your devices from your Smartphone and customize them to your preference. Works perfectly with Google Assistant and Amazon Alexa.

DELTACO SMART HOME was created to give us what we all want -
an intelligent, simplifying home for us to endlessly enjoy.

HOW SMART HOME WORKS

Remote control

Manage via the app, when your lamps or plugs are to be switched on / off

Timer Function

Turn off your devices, at the selected time

Grouping

Connect your products in the app and decide, e.g. if / when all lamps should be switched on / off simultaneously

Scheduling

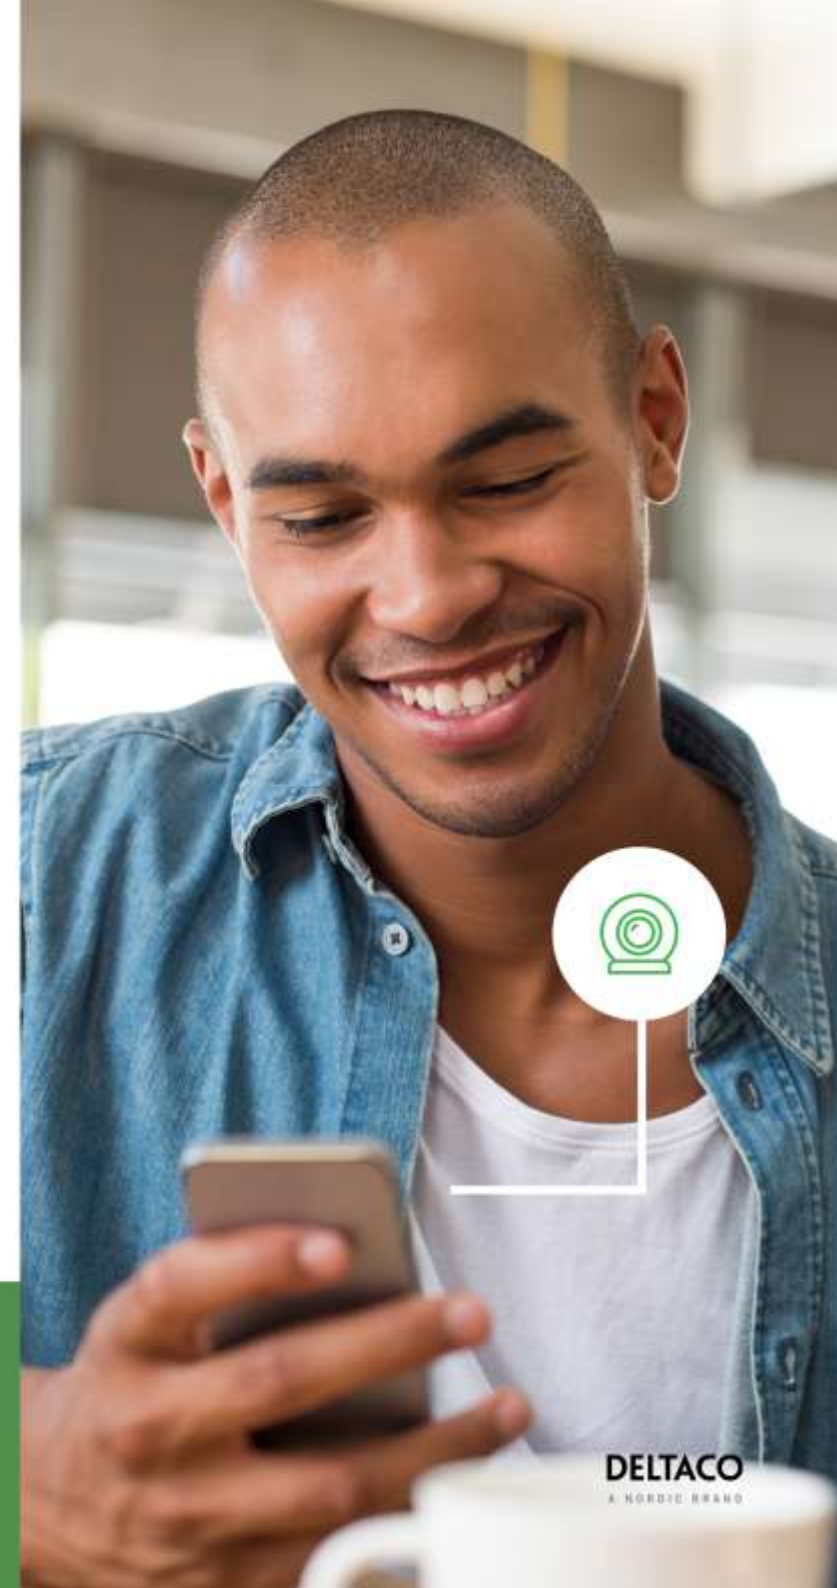

Program your devices to switch on / off, at the selected time

Energy Consumption

Measure your energy consumption by day, week, month or year

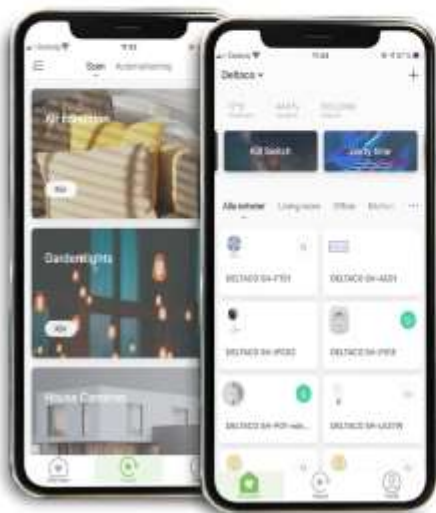

Scenes

Create smart scenarios in the app to control and manage the products in the selected event process, to maximize home automation

**NEW PRODUCTS AND FEATURES ARE CONSTANTLY
BEING DEVELOPED TO MAKE LIFE AT HOME SIMPLER**

THE DELTACO SMART HOME APP

Easy to use, turn on / off your devices with the DELTACO SMART HOME app

Connects to Wi-Fi Frequency 2.4 GHz

All your devices in one place, customize them to your home

Monitor your energy consumption

Voice control with Google Assistant

Works with Amazon Alexa

THE SMART HOME COLLECTION

The image displays a variety of smart home electrical products arranged on a white surface. The top row features a long white power strip, two different styles of white wall outlets, four LED light bulbs (two standard A-shaped and two C-shaped), one multi-colored smart bulb, and a green and white striped string light. The bottom row includes another white outlet, a black and green smart plug with its cover open, a black and green smart switch, five warm white LED light bulbs (three A-shaped and two C-shaped), and two small clusters of colorful string lights. In the background, there are faint illustrations of a tree, a window with curtains, and a plant.

Available in more sizes

POWER

A great variety of different smart indoor / outdoor power plugs as well as a smart water controller to assist you in your daily life.

POWER

A great variety of different smart indoor / outdoor power plugs as well as a smart water controller to assist you in your daily life.

LIGHTS

To make life a little bit brighter, we offer a complete assortment of smart bulbs, smart LED strips and smart string lights.

LIGHTS

To make life a little bit brighter, we offer a complete assortment of smart bulbs, smart LED strips and smart string lights.

SECURITY

Protect home and family by using our smart indoor / outdoor cameras, smart doorbell, smart motion sensor and smart siren.

CLIMATE

With our smart fans you can adapt your home to your own needs by controlling and regulating the temperature – hot or cold.

POWER

SPREAD THE SMARTNESS

With our indoor / outdoor smart plugs and power outlets you can program and control your other unintelligent devices. Perfect for e.g. scheduling freshly brewed coffee in the morning or why not control when to turn on / off your lamps and TV?

With our outdoor smart plug you can turn on / off the lights, as well as heating on the balcony or in the car. With some of our switches you can even monitor your energy consumption.

SH-P01

SMART PLUG

Max power out: 2400W
Plug type: Schuko / Type F CEE 7/4 plug,
Socket type: CEE 7/3 socket
Input voltage: 220 - 240V AC
Features: Timer & schedule on/off

Wi-Fi Frequency: 2.4 GHz
Network protocol: IEEE 802.11 b/g/n
Compatibility: DELTACO Smart Home app,
 Amazon Alexa & Google Assistant

SH-P01E

SMART PLUG WITH ENERGY MONITORING

Max power out: 2400W
Plug type: Schuko / Type F CEE 7/4 plug,
Socket type: CEE 7/3 socket
Input voltage: 220 - 240V AC
Features: Timer, schedule on/off & measure energy consumption

SH-P02E

2 WAY OUTLET SMART PLUG
WITH ENERGY MONITORING

Max power out:	3250W
Plug type:	Type F CEE 7/7 / Schuko
Socket type:	CEE 7/3 Schuko
Input voltage:	220 - 250V AC
Features:	Switch each socket on/off separately, Timer, schedule on/off & measure energy consumption (KWh)

Wi-Fi Frequency:	2.4 GHz
Network protocol:	IEEE 802.11 b/g/n
Compatibility:	DELTACO Smart Home app, Amazon Alexa & Google Assistant

SH-P03USB2

SMART 3 WAY OUTLET WITH
2 USB PORTS

Max power out:	2990W
Plug type:	Type F CEE 7/7 / Schuko
Socket type:	CEE 7/3 socket
Input voltage:	220 - 240V AC
Features:	Switch each socket on/off separately & schedule on/off

SH-OP01

SMART OUTDOOR PLUG WITH
ENERGY MONITORING

Max power out:

3120W

Plug type:

Type F CEE 7/7 / Schuko

Socket type:

CEE 7/3 socket

Input voltage:

220 - 240V AC

Features:

Switch each socket on/off separately
& schedule on/off

SH-OW01

SMART WATER CONTROLLER

Power supply:

9V

Rated power consumption:

<1W

Static current:

30mA

Operating temperature:

0-60° C

Working pressure:

1,5-8kg

Output control mode:

Pulse output

Waterproof grade:

IP67

Features:

Wifi coverage

SMART OUTDOOR PLUG – SMART WATER CONTROLLER

Start your day with the smell of freshly brewed coffee? Turn on the coffee machine from the bedroom

Monitor your energy consumption from your Smartphone

Turn on the TV, charge your iPad and turn on the lights on your way home from work

Everyday outdoor activities can be so easy with our OUTDOOR PLUG. Without going out from home you can:

- *turn on / off the lights outside*
- *turn on / off the heating in the garage*
- *turn on/ off the heating in the car and more...*

All your outdoor devices can be smart with the DELTACO SMART HOME PLUG

DELTACO

- *The motion sensor allows you to detect unwanted guests on your property*
- *The siren turns on immediately when motion is detected*
- *All alerts are instantly shown in the DELTACO SMART HOME app, giving you the opportunity to react accordingly*

Built in microphone and speaker for two-way communication

Night vision to see in the dark

Possibility to record, take photos and save it on your Smartphone or an SD card

Monitor directly from your Smartphone with the DELTACO SMART HOME app

Can be installed outdoors as well as indoors

Motion detection and night vision with the possibility to record, take photos and save it on your Smartphone or SD card

CLIMATE

CONTROL THE TEMPERATURE

As you know, we are on a mission to make your life simpler and more comfortable.

Wouldn't it then be nice if you could control the inhouse temperature and schedule it to your needs? That is exactly what our smart home fans are made to do. By scheduling the fans to start the time you usually return from work or just turning them on your way home, you can always come home to a cool house on hot summer days or to a warm and cozy home when winter arrives.

SH-FT01 SMART TOWER FAN

Power Supply:	220-240V/50Hz
Air flow:	250 M3/h (high speed)
Power:	55 W
Sound level:	57dB(A)
Display:	LED
Remote Control:	Yes
Wind modes:	3 modes
Features:	Programmable timer for on/off and speed level, 6 speed settings, wide angle oscillation, display showing room temperature & touch buttons for control
Height:	120 cm

WiFi Frequency:	2.4 GHz
Network protocol:	IEEE 802.11 b/g/n
Compatibility:	DELTACO SMART HOME app, Amazon Alexa & Google Assistant

SH-AC01 SMART AIR CONDITIONER

Power Supply:	220-240V/50Hz
Refrigerant:	Eco friendly, R-290
Air flow:	400 M3/h (high speed)
Power:	1125 W/ 4.9 A (maximum)
Sound level(dBA):	≤ 54dBA
Remote Control:	Included
Cooling Capacity:	9,000 BTU
Heating Capacity:	7,000 BTU
Features:	Programmable timer to automate on/off and selected temperature, digital thermostat control range (16°~31°), 3-speed fan & exhaust hose and window kit included
Height:	72,2 cm

Spreads cool and warm air up to 30sqm

Check the temperature comfortably from your sofa with the remote control or with the DELTACO SMART HOME app
