

VIVANCO

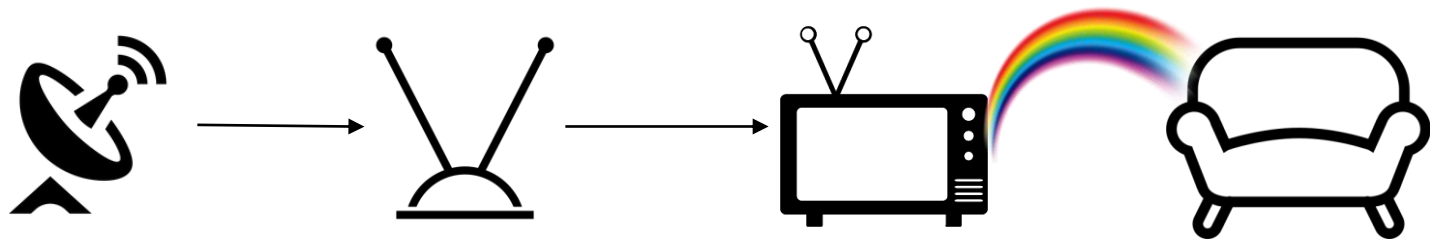

TV ANTENE

TRŽIŠTE

- Prodaja TV uređaja ide uzlaznom putanjom čak i u dobu Covid-a
- S obzirom na prelazak na zemaljski DVB-T2 signal, zabilježeno je značajno povećanje potražnje za TV opremom
- DVB-T2, poznatiji i kao DVB-T2/HEVC-H.265 donosi značajno poboljšanje kvalitete prijema
- DVB-T2 omogućava emitiranje slike u HD (High Definition) kvaliteti za sve distributere TV usluga
- Kroz 2020. i 2021. godinu zabilježen je i porast potražnje za TV Antenama

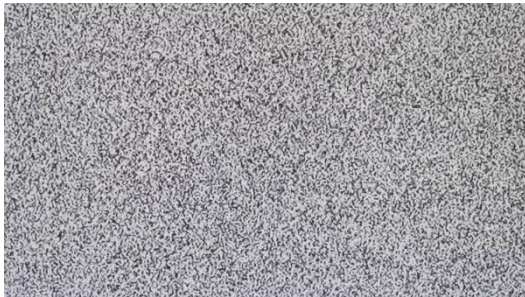

PRIJEM TV SIGNALA

VIVANCO ANTENE

- VIVANCO nudi potpuno rješenje za svaku potrebu
- Ponuda VIVANCO antena sastoji se od 13 različitih modela
- 2 vanjske antene
- 11 unutarnjih antena
- Sve VIVANCO antene spremne su za DVB-T2 signal i više od tog:
 - DVB-T
 - DVB-T2
 - DAB+
 - FM

Klasične antene

VIVANCO antene

29954 – Vanjska antena 48dB

- For analogue and digital TV reception, DVB-T and DVB-T2, DAB radio
- The most innovating 48 dB amplification technology for an optimal amplification of terrestrial TV signals
- Auto-gain control: automatic setting of the best amplification factor
- Active low-noise technology for extremely clear reception
- Multi-direction 360° system increases reception capacities
- Highest level of flexibility: positioning, wall or mast assembly possible
- Perfectly suitable for external applications and for caravans and mobile homes
- Current supply by power supply or DVB-T receiver
- Suitable for all weather conditions
- Included cable for antenna of 8,5 m Box contents:
- Mounting kit for wall, mast- and railing assembly (Balcony)
- Power adapter
- Power inserter
- Antenna cable

VIVANCO

29955 – Vanjska antena 42 dB

- For analogue and digital TV reception, DVB-T and DVB-T2, DAB radio
- The most innovating 42 dB amplification technology for an optimal amplification of terrestrial TV signals
- Active low-noise technology for extremely clear reception
- Multi-direction 360° system increases reception capacities
- Highest level of flexibility: positioning, laying, wall and mast assembly possible
- Perfectly suitable for external applications and for caravans and mobile homes
- Current supply by power supply or DVB-T receiver
- Suitable for all weather conditions
- Included cable for antenna of 8,5 m
- Box contents:
 - Mounting kit for wall, mast- and railing assembly (Balcony)
 - Power adapter
 - Power inserter
 - Antenna cable

38879 – Pasivna unutarnja antena

- Passive tube antenna
- 360° reception
- For analogue and digital TV reception, DVB-T, DVB-T2, DAB and DAB+ radio
- Omnidirectional: no adjustment required
- Passive increase of terrestrial TV signals
- cablelength: 1.2 m
- Range: 0-5 km
- Plug & Play

38881 – Aktivna unutarnja antena

- Active tube antenna
- 360° reception
- For analogue and digital TV reception, DVB-T, DVB-T2, DAB/DAB+radio and FM-radio
- The most innovating amplification technology for an optimal amplification of terrestrial TV signals
- Filter to suppress the reception of mobile radio signals
- Current supply by power supply or DVB-T receiver
- cable length: 1.2 m
- Range: 0-15 km
- Incl. power adapter

38882 – Unutarnja antenna

- Passive ring antenna
- For analogue and digital TV reception, DVB-T, DVB-T2, DAB/BAB+radio and FM-radio
- Passive increase of terrestrial TV signals
- Additional telescopic antennas for ideal VHF and UKW reception
- cable length: 1.2 m
- Range: 0-5 km
- Plug & Play

VIVANCO

38883 – Unutarnja antenna s LTE filterom

- For analogue and digital TV reception, DVB-T, DVB-T2, DAB/DAB+ and FM radio
- The most innovating amplification technology for an optimal amplification of terrestrial TV signals
- Variable amplification performance for a perfect reception setting
- On-/ Off- switch
- Filter to suppress the reception of mobile radio signals
- Current supply by power supply or DVB-T receiver
- Incl. power adapter, 1,2m coax cable

VIVANCO

38884 – Unutarnja antena s LTE filterom

- For analogue and digital TV reception, DVB-T, DVB-T2, DAB/DAB+ and FM radio
- The most innovating amplification technology for an optimal amplification of terrestrial TV signals
- Variable amplification performance for a perfect reception setting
- On-/Off- switch
- Filter to suppress the reception of mobile radio signals
- Current supply by power supply or DVB-T receiver
- Incl. power adapter, 1,5m coax cable

VIVANCO

38885 – Full HD unutarnja antena s LTE filterom

- For analogue and digital TV reception, DVB-T, DVB-T2, DAB and DAB+ radio
- The most innovating amplification technology for an optimal amplification of terrestrial TV signals
- Variable amplification performance for a perfect reception setting
- On-/ Off- switch
- Filter to suppress the reception of mobile radio signals
- Current supply by power supply or DVB-T receiver
- Incl. power adapter, 2m coax cable

VIVANCO

38886 – Full HD unutarnja antena s LTE filterom

- For analogue and digital TV reception, DVB-T, DVB-T2, DAB and DAB+ radio
- The most innovating amplification technology for an optimal amplification of terrestrial TV signals
- Filter to suppress the reception of mobile radio signals
- Current supply by power supply, USB connection or DVB-T receiver
- Ideal also for PC / Tablets with TV Tuner
- Curved design
- Ultra compact
- LTE Filter
- USB compatible
- Incl. Power Adapter, 2m coax cable, 1m USB cable, external amplifier

VIVANCO

38887 – Full HD unutarnja antena s LTE filterom

- For analogue and digital TV reception, DVB-T, DVB-T2, DAB and DAB+ radio
- The most innovating amplification technology for an optimal amplification of terrestrial TV signals
- Filter to suppress the reception of mobile radio signals
- Current supply by power supply, USB connection or DVB-T receiver
- Ideal also for PC / Tablets with TV Tuner
- Curved design
- LTE Filter
- USB compatible
- Incl. Power Adapter, 2m coax cable, 1m USB cable, external amplifier

VIVANCO

38889 – Full HD unutarnja antena s LTE filterom

- For analogue and digital TV reception, DVB-T, DVB-T2, DAB and DAB+ radio
- The most innovating amplification technology for an optimal amplification of terrestrial TV signals
- Variable amplification performance for a perfect reception setting
- On-/Off- switch
- Filter to suppress the reception of mobile radio signals
- Current supply by power supply or DVB-T receiver
- Very compact design
- Incl. Power Adapter, 2m coax cable

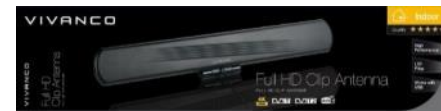

VIVANCO

38890 – Clip Full HD unutarnja antena s LTE filterom

- For analogue and digital TV reception, DVB-T, DVB-T2, DAB and DAB+ radio
- The most innovating amplification technology for an optimal amplification of terrestrial TV signals
- Filter to suppress the reception of mobile radio signals
- Current supply by power supply, USB connection or DVB-T receiver
- Mounting with clip on television, wall mounting or stand below the TV
- USB compatible
- Incl. Power Adapter, 3m coax cable, 1m USB cable, external amplifier, mounting clip

VIVANCO

38891 – Full HD unutarnja antena s LTE filterom

- For analogue and digital TV reception, DVB-T, DVB-T2, DAB and DAB+ radio
- The most innovating amplification technology for an optimal amplification of terrestrial TV signals
- Filter to suppress the reception of mobile radio signals
- Current supply by power supply, USB connection or DVB-T receiver
- Ultra flat design
- USB compatible
- Incl. Power Adapter, 3m coax cable, 1m USB cable, external amplifier
